

Arista Access Switch Alarm ALARM_3974 SOP

Node: Arista-Access-Chennai-TN-90 | **Vendor:** Arista | **Severity:** Warning | **Alarm Code:** ALARM_3974

Description

ALARM_3974: Warning alarm on Arista Access Switch Arista-Access-Chennai-TN-90 due to [Alarm Description: Not Specified].

Potential Root Causes

Cause	Probability
Arista-Access-Chennai-TN-90's CPU resource utilization is high.	High
Arista-Access-Chennai-TN-90's memory usage is above threshold.	Medium
Arista-Access-Chennai-TN-90's fan speed is abnormal.	Low

Diagnostic Commands

```
show system resource
show memory detail
show environment
```

Resolution Steps

Step 1: {'Step': '1. Check CPU resource utilization and memory usage.', 'Action': 'Use the "show system resource" and "show memory detail" commands to check CPU and memory usage.'}

Step 2: {'Step': '2. Identify and mitigate CPU-intensive processes.', 'Action': 'Use the "show processes cpu" command to identify CPU-intensive processes and mitigate them.'}

Step 3: {'Step': '3. Clear memory using the "clear memory" command if necessary.', 'Action': 'Use the "clear memory" command to clear memory if it is above threshold.'}

Step 4: {'Step': '4. Check and replace fan if it is faulty.', 'Action': 'Use the "show environment" command to check fan speed and replace it if it is faulty.'}

Post-Check Verification

```
show system resource
show memory detail
show environment
```
