

Arista Access Switch Alarm Resolution SOP

Node: Arista-Access-Kolkata-WB-122 | **Vendor:** Arista | **Severity:** Major | **Alarm Code:** ALARM_5932

Description

Alarm Code: ALARM_5932 Severity: Major on Node ID: Arista-Access-Kolkata-WB-122 Vendor: Arista Role: Access Switch. This SOP is for resolving the alarm related to the specified node.

Potential Root Causes

Cause	Probability
Loss of connectivity between the access switch and the spine switch	High
Spanning Tree Protocol (STP) convergence issue	Medium
Hardware failure on the access switch	Low

Diagnostic Commands

```
show interface status
show spanning-tree
show ip bgp summary
show tech-support
```

Resolution Steps

- Step 1: {'Step': '1. Check the interface status and connectivity', 'Action': 'Run the command: show interface status', 'Expected_Result': 'Verify that the interface is down'}
- Step 2: {'Step': '2. Check the STP status and convergence', 'Action': 'Run the command: show spanning-tree', 'Expected_Result': 'Verify that STP is converged'}
- Step 3: {'Step': '3. Check the BGP status and routes', 'Action': 'Run the command: show ip bgp summary', 'Expected_Result': 'Verify that the BGP session is established'}
- Step 4: {'Step': '4. Check for hardware failures', 'Action': 'Run the command: show tech-support', 'Expected_Result': 'Verify that there are no hardware failures'}
- Step 5: {'Step': '5. Reset the interface or replace the hardware if necessary', 'Action': 'Run the command: interface Reset (for interface reset) or replace the hardware', 'Expected_Result': 'Verify that the alarm is cleared'}

Post-Check Verification

```
show interface status
show spanning-tree
```

```
show ip bgp summary  
show tech-support
```
