

# Arista Access Switch Alarm Resolution SOP - ALARM\_2689

**Node:** Arista-Access-Mumbai-MH-44 | **Vendor:** Arista | **Severity:** Major | **Alarm Code:** ALARM\_2689

## Description

This SOP outlines the steps to diagnose and resolve ALARM\_2689 on Arista Access Switch Node ID: Arista-Access-Mumbai-MH-44.

## Potential Root Causes

| Cause               | Probability |
|---------------------|-------------|
| Hardware Failure    | High        |
| Software Bug        | Medium      |
| Configuration Error | Low         |

## Diagnostic Commands

```
show system internal switch-profile
show system internal switch-profile detail
show hardware
show hardware detail
```

## Resolution Steps

Step 1: {'step': '1. Check switch-profile configuration', 'action': 'Verify the switch-profile configuration using the command: show system internal switch-profile detail. Check for any configuration errors or inconsistencies.', 'commands': ['show system internal switch-profile detail']}

Step 2: {'step': '2. Verify hardware health', 'action': 'Verify the hardware health using the command: show hardware detail. Check for any hardware failures or errors.', 'commands': ['show hardware detail']}

Step 3: {'step': '3. Restart the switch', 'action': 'Restart the switch to resolve any software-related issues.', 'commands': ['reload']}

Step 4: {'step': '4. Clear the alarm', 'action': 'Clear the alarm using the command: clear system internal switch-profile alarm ALARM\_2689.', 'commands': ['clear system internal switch-profile alarm ALARM\_2689']}

## Post-Check Verification

```
show system internal switch-profile detail
show hardware detail
```

```
show system internal switch-profile alarm
```
