

SOP: Juniper Provider Edge Router (Juniper-PE-Delhi-NCR-28) - Alarm ALARM_1300 - Major

Node: Juniper-PE-Delhi-NCR-28 | **Vendor:** Juniper | **Severity:** Major | **Alarm Code:** ALARM_1300

Description

Alarm ALARM_1300 on Juniper Provider Edge Router (Juniper-PE-Delhi-NCR-28) indicates a major issue. This SOP outlines steps to diagnose and resolve the root cause.

Potential Root Causes

Cause	Probability
Interface Flapping	High
Routing Protocol Issues	Medium
Hardware Failure	Low

Diagnostic Commands

```
show interfaces extensive
show routing protocol summary
show system statistics
show chassis hardware
```

Resolution Steps

- Step 1: {'Step': '1. Check Interface Status', 'Action': "Run command 'show interfaces extensive' to verify interface status."}
- Step 2: {'Step': '2. Verify Routing Protocol Configuration', 'Action': "Run command 'show routing protocol summary' to verify routing protocol configuration."}
- Step 3: {'Step': '3. Check System Statistics', 'Action': "Run command 'show system statistics' to verify system statistics."}
- Step 4: {'Step': '4. Verify Hardware Status', 'Action': "Run command 'show chassis hardware' to verify hardware status."}
- Step 5: {'Step': '5. Reset Interface or Routing Protocol', 'Action': "Run command 'clear interfaces ' or 'clear routing protocol ' to reset interface or routing protocol."}

Post-Check Verification

```
show interfaces extensive
show routing protocol summary
show system statistics
```
